3) In another file which is before the Minister the D.T.S has solicited sanction for an expenditure of Rs. 1140-5-0 on account of temporary labour employed by him at the Bangalore city railway goods sheds in July and August 1945.

4) As regards proposal (2) the D.T.S. states that the following special powers delegated to him in G.O. No. Ld. 7184-86/A 176-43-4 dated the 21st-25th April 1944 (flag "W") is very restricted:-

"to appoint temporary labour, such as, measurers, bag-stitchers, loading jangal etc during the busy season for a period not exceeding four months at a time on wages not exceeding Rs. 157- p.m. subject to an annual limit of Rs. 500/-. A list of such cases should be sent to Government every month."

In view of the adverse seasonal conditions in the State, larger stocks of foodgrains are being imported from outside the State and the necessity to appoint such extra staff at short notice is felt all the more according to the Director. He has therefore requested that he may be authorised to pass such bills up to a monthly limit of Rs. 1000/-. This means a wide extension of his powers under this item. The Comptroller may be consulted in the first instance. Kindly.

4) It is learnt from the Auditor and Accounting Officer that most of the Daily Labour engaged by the Food Supplies Department is for the removal of food-grains at the Railway Goods shed in Bangalore City. Since this labour is engaged on Nominal Roll basis, it is quite necessary that there should be a certain relationship between the labour employed and the work turned out.

5) The statement showing the work done during January 1946 (copy enclosed) reveals that there is no uniformity of work throughout the month and the number of wagons unloaded each day ranges between 6 and 58. Still the actual number of attenders and bag-stitchers engaged throughout the month is 13 attenders and 10 bag stitchers which is very high for days on which only less than 10 to 15 wagons have been dealt with.

6) Taking the average number of wagons unloaded each

each day to be 30, (about 20 Meter-guage and 10 Broad-guage wagons) the total daily removals would be about 4,000 bags. Since the work of the attenders is stated to be to look to the unloading of wagons and to accompany the lorries carrying these bags to the Reserve Depots, each attender can conveniently supervise the work of 3 wagons (2 meter-guage and 1 broad-guage wagon) each day. On this basis, the maximum number of attenders that can be constantly had would be about 10.

11) The work of the bag stitchers, as its name implies, is to measure the loose bags and restitch them. Since such cases would not be very large, about 3 bag stitchers may be conveniently had throughout the month.

12) If any more labourers are necessary during the periods of heavy rush of wagons, the above principle may be followed and additional labourers employed.

13) In the above circumstances it is better that some monthly scale of attenders and bag stitchers is got sanctioned by Government with powers to appoint additional labourers on the above principle as and when required, on daily wages thought suitable by the Director. As the monthly limit of wages will depend on the stocks

14) The point for order is whether the D.F.S. may be authorised to pass nominal rolls bills upto a monthly limit of Rs. 1000/- (as against the annual limit of Rs. 500/- sanctioned in G.O. no Ly 7184-86/ A176-43-4 of 21/25.4.1944 — Vide item 3 of the Special Powers). The comptroller has stated that as the monthly limit of wages will depend on the stocks received which, at present, are not uniform, no definite monthly limit can be laid down. He has, however, suggested (i) that the maximum number of (a) fitters that can be constantly had at the Bangalore city railway goods shed would be about 10 and (b) bag-fitters, about 3 and

(ii) that if any more labourers are necessary during the period of heavy rush of wagons, the above principle might be followed and additional labourers employed.

Returned with compliments.

17) I am wholly in agreement with the suggestion of the Comptroller to have a monthly scale of attenders and bag stitchers as a nucleus and to appoint additional men on daily wages in cases of pressure of work. The question for consideration is what this minimum scale ought to be. I have studied the question carefully with the Assistant Director of Food Supplies (Depots). The work of the attenders and bag stitchers is not merely to attend to the supervision of loading and unloading of wagons, but also to accompany the lorries

Serial No.

carrying food grains from the goods shed to the godowns. These people have also to do a good lot of policing work in respect of food loads in the City Railway yard. Several cases of cutting of bags through crevices in the wagons, and the pilferages by beggars, sweepers etc., were traced due to the vigilance of these men.

18) 2. A statement showing the work done during the last seven months is enclosed. It will be noticed therefrom that during the months of May, June and July the work has increased considerably. The State being heavily deficit in respect of food grains during the current year, large stocks of food grains are being obtained from outside the State. The imports during the last four months May to August 1946 have exceeded 60,000 tons. The bulk of these imports comes from Madras or Marmagoa port. Seven, out of nine districts in the State are being served by metre gauge railway. The broad gauge serves only Kolar and Bangalore districts. Owing to the inability of the Mysore State Railway to clear broad gauge wagons expeditiously, the Regional Controller of Railway Priorities, Madras is refusing to allot wagons for direct booking to metre gauge stations beyond a small number, with the result that consignments meant for metre gauge stations have to be first got to Bangalore City, cleared here and then sent to the officers concerned when wagons on metre gauge are available. This work has to be undertaken by the Department in the interest of expeditious despatch of food grains to deficit areas. It is thus seen that the work in the Transport Section has increased considerably and the staff has to be strengthened.

19) 3. The main point for consideration is that the wagons come to City Railway Station from three directions from Madras side on broad gauge, from Poona side from Hariher and Guntakal sides. Trains come at different inconvenient hours. To avoid congestion in the good shed, they have to be cleared expeditiously. The staff has therefore to work overnight, by necessary shifts. This means that a number of men will have to be kept in readiness.

20) 4. Considering all those aspects of the question, I strongly urge, that sanction of Government may kindly be obtained to employ a minimum standing staff of 10 attenders and 6 bag stitchers, the former at Re.1/- per day and the latter at Rs.0-10-0 per day. On days when heavy arrivals are anticipated, the Assistant Director of Food Supplies (Depots) may be empowered to appoint additional staff in consultation with the Director of Food Supplies.

OFFICE OF

the Director of FoodSupplies in Mysore,

Date 23rd February 1946.

To

The Secretary to Government,
Development Department (FoodSupplies),
Bangalore.

Sir.

I have the honor to invite kind reference to my letter No.Bl.C. 2702/45-46 dated 20-1-1946 requesting that I might be authorised to pass bills upto a monthly limit of Rs.1000/- in respect of appointment of temporary labour on nominal rolls for emergent works in Bangalore.

2. For the month of January 1946, a bill has been prepared for Rs.659/4 by the Assistant Director of FoodSupplies,(Depots) for making payments to labour employed at the City Railway Goodshed on a nominal roll.

3. As has been made clear in my previous letter of 20-1-1946, the employment of such labour is found necessary in order to clear the heavy consignments that are being received at the Goodshed. The volume of work for January required the moving of 1,46757 bags, and 413 lorries were working in all during this period for clearing consignments.

4. I have requested the Auditor & Accounting Officer to pass the bill provisionally so as not to inconvenience the coolies due to non-payment of wages and request that my action may be approved. Orders may also be kindly passed on my original reference authorising me to pass in future all such bills upto a monthly limit of Rs.1000/-.

I have the honor to be,
Sir,

Office of the Director of Food Supplies
in Mysore, Bangalore,
22nd January 1946.

No.B1.C.2702/45-6.

To

The Secretary to Government,
Development Department (Food Supplies)
Bangalore.

Sir,

Subject: Appointment of temporary labour on nominal rolls for emergent works.

I have the honour to state that with a view to lessen the congestion in the Railway Goods Shed areas, and to release the wagons bringing loads of foodgrains as quickly as possible, labour is being employed on nominal rolls by the Assistant Director of Food Supplies (Depots). During the month of December 1945 owing to the receipt of heavy consignments of Jowar from Hyderabad, rice from Central Provinces, and the local rice from Shimoga, Mysore, Mandya and Hassan Districts, extra labour was employed by the Assistant Director of Food Supplies (Depots) to clear the wagons, and to transport the bags to godowns. The total cost incurred in this behalf was Rs.559/6/- (Rupees Five hundred & fifty nine & annas six only). The Auditor & Accounting Officer, objected to the payment of the bill for want of necessary sanction under para (3) of annexure xx to Government Order No.SD.7184-86/A.176-43-4 dated 25th April 1944. As it was necessary to pay the labour then and there, I have sanctioned the bill in anticipation of approval of Government. I request you kindly to obtain ~~sanction~~ approval of Government to my action in this behalf.

2. In this connection, it may be stated that the powers of sanction delegated to the undersigned, are very restricted. The annual limit prescribed thereunder is Rs.500/-. As a matter of fact, the one bill for December 1945, referred to above, has already exceeded this limit. In view of the prevalence of adverse seasonal

seasonal conditions in the State, larger stocks of food-grains are being imported from outside the State, and the necessity to appoint such extra staff at short notice is felt all the more in these days. Wagons have to be released immediately, to avoid extra junction balances, and the consequent cut in movements. In these circumstances, I request you kindly to authorise me to pass such bills up to a monthly limit of Rs 1000/- so as to avoid unnecessary delay in correspondence.

The favour of early orders is requested.

I have the honour to be,
Sir,
Your most obedient servant,
